DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, 22-25, 29-32, 47-48 drawn to identification of a printing device consumable (e.g. to method of providing an identification key to verify identification of a printing device consumable), classified in class 726, subclass 20.
 - II. Claims 16-21, 26-28, 33-43 drawn to identification of a printing device (e.g. a method of providing an identification key to verify a printing device), classified in class 713, subclass 185.

Inventions (I) identification of a printing device consumable and (II) identification of a printing device are related as subcombinations usable together in a single combination.

The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) 1-15, 22-25, 29-32, 47-48 drawn to identification of a printing device consumable, classified in 726, subclass 20, does not require accepting a printing device consumable in a printing device only if the identification key identifies a compatible printing device consumable, for example, and invention (II) to 16-21, 26-28, 33-43 drawn to identification of a printing device, classified in class 713, subclass 185 does not require accepting a printing device for

Art Unit: 2134

use with the printing device consumable only if an identification key identifies an authorized printing device, for example.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
